Professional Summary

Results-driven Software Engineer with 4+ years of experience building scalable full-stack web applications using Laravel, PHP, React.js, Vue.js, and MySQL. Proficient in REST API development, database design, performance optimization, and modern front-end technologies. Committed to delivering maintainable, user-focused solutions with clean architecture and efficient problem-solving.

Experience

Software Engineer | Clevpro

Sept 2023 – Present | Cumilla, Bangladesh (Hybrid)

Technologies: Laravel, React.js, Vue.js, MySQL, REST APIs, Git, Docker

- Developed and maintained scalable web applications using Laravel and React.js, serving multiple clients.
- Collaborated with cross-functional teams to deliver high-quality solutions on schedule.
- Integrated third-party APIs to streamline automation and boost operational efficiency.
- Developed RESTful APIs and optimized database queries, improving API performance and database efficiency.

Web Developer | SATT Academy

Jan 2022 – Aug 2023 | Rajshahi, Bangladesh (On-site)

Technologies: Laravel, JavaScript, REST APIs, Git

- Built dynamic web applications using Laravel framework for internal and client projects.
- Designed and implemented backend REST APIs and admin panels for content management.
- Enhanced system reliability through targeted debugging and performance tuning.

Web Developer Intern | IT Scholar

Sep 2021 – Dec 2021 | Dhaka, Bangladesh (On-site)

- Developed PHP-based web applications under senior developer guidance.
- Applied MVC architecture patterns and Laravel framework in production projects.

Education

B.Sc. in Computer Science & Engineering | Stamford University Bangladesh (2016 – 2020)
CGPA: 3.45

Skills

Backend: PHP, Laravel, REST APIs, MySQL, SQL

Frontend: JavaScript, Vue.js, React.js, jQuery, AJAX

UI Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS

Architecture: MVC, SPA Development, Database Design, SaaS Architecture

Tools: Git, GitHub, CI/CD (GitHub Actions), Docker

AI Tools & Workflow: ChatGPT, Claude, Cursor, AI-assisted debugging, code generation, and development workflow optimization

Projects

- [Joincorely](#)
Built a multi-tenant SaaS platform for Pilates businesses featuring tenant isolation, custom domains, admin dashboards, and website management.
Technologies: Laravel, JavaScript, jQuery, Stripe, REST APIs, Bootstrap, MySQL
- [SpaceNest](#)
Engineered a space rental and booking platform enabling property listing, browsing, and management with real-time availability and scheduling.
Technologies: Laravel, React.js, Tailwind CSS, MySQL
- [Clubband CRM](#)
Developed an event and band management system handling booking requests, event coordination, performer management, and scheduling for administrators.
Technologies: Laravel, JavaScript, jQuery, REST APIs, Bootstrap, MySQL
- [Fineme](#)
Built a mobile beauty service platform enabling users to book salon services at their preferred location with appointment scheduling and service management.
Technologies: Laravel, JavaScript, jQuery, Bootstrap, MySQL
- [Buildela](#)
Developed a job marketplace connecting clients with skilled professionals for project collaboration and hiring.
Technologies: PHP, JavaScript, jQuery, REST APIs, Bootstrap, MySQL
- [Satt Academy](#)
Built an online learning platform for course management, student progress tracking, and interactive educational content.
Technologies: Laravel, JavaScript, jQuery, Bootstrap, MySQL
